- 7.   movies with the highest average votes and vote counts

- 8.   The movie "once Upon a time" in America how many popularity and vote count does it have.

Recommendations and advice.

1. After series of research we could deduce that the more movies are being translated to English language than other languages and also English subtitled movies has more viewers both at home and in the cinemas than other movies in the world

2. I would advice that actors of non English speaking country to embrace subtitle movies to English language so as to have more patronage in English speaking country and also have more viewers and also explore style in which English speaking country does their movies which gives them more attention and implement it in producing their movies as well.
